E.T.A. AND E NUX PHILOSOPHY

Preserving environmental resources and increasing their value over time; investing in new manufacturing processes with a long-term vision; offering technologically advanced & high-quality enclosure solutions: this is the company philosophy, which is well represented by E NUX, the new modular cabinet system offered by E.T.A.

Innovation is deployed at multiple levels for E NUX: research for environmental protection and efficiency, investments in new high-tech machinery and energy-saving machining processes, new constructive concepts and selection of last-generation materials with high-performance mechanical properties. E NUX cabinet system is a perfect match of made -in-Italy design and leading-edge technical and quality features, studied to enhance functionality, protection and versatility of your enclosure solutions.

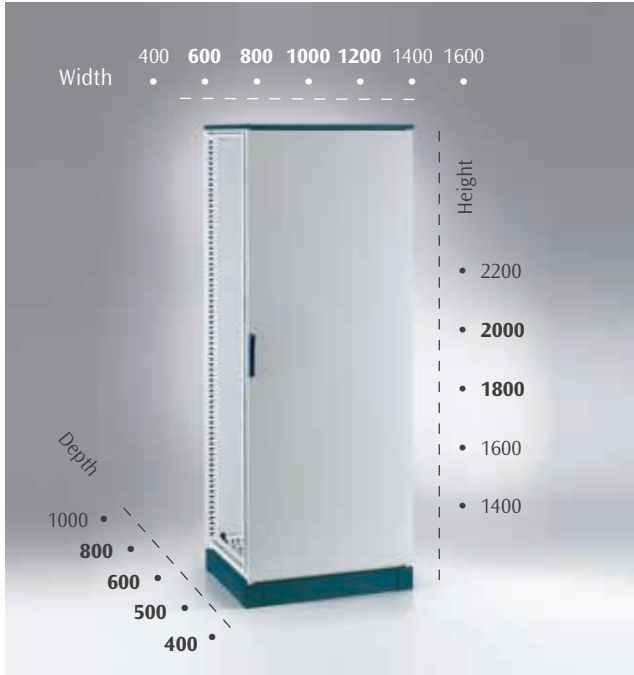

WHEN RELIABILITY MEETS FUNCTIONALITY

Nothing is more critical than your components. At E.T.A. we are constantly aware of that. That's why everything about the new E NUX modular cabinet system is designed with those components in mind.

90 DIMENSIONS AVAILABLE

A comprehensive range of cabinets offered to meet any requirement: 90 frame sizes are available as standard, in order to fulfil any installation need for free-standing applications, from the smallest to the largest.

2 STANDARD VERSIONS

E NUX is a complete and modular cabinet system delivered to specific customer demands thanks to two types of standard configurations: E NUX and E NUX Simplex (with simplified door and mounting plate).

E NUX ACCESSORIES & FULL COMPATIBILITY WITH E.T.A. ITEMS

The application of the complementary concept has resulted into the production of a totally new structure, onto which existing E.T.A. items and accessories can be assembled for ease of combination and stock management.

The full compatibility with existing accessories of the award winning cabinet system Areta is granted: the inner dimensions and distances of E NUX are exactly the same of the previous range and all the Areta items can be assembled on E NUX cabinet too.

* Dimensions in bold are available as E NUX Simplex too

FLEXIBILITY AS A STEADY POINT

A COMPLETE RANGE

E NUX can be provided either fully assembled or supplied in the flat-pack version for ease of space and handling.

ENUX Assembled Version:

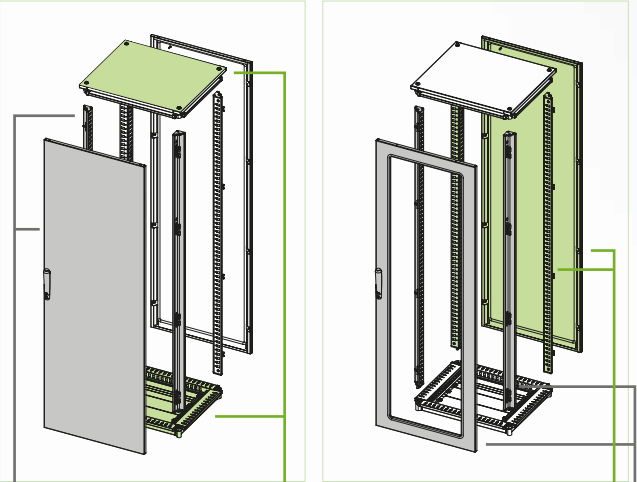

ENUX Flat-pack Version:

1 - EUTF 2 - EUPO, EUPO...L, EUPV 3 - EURE

- frontal blank door and rear panel (ENUX...PR)
- frontal blank door and rear blank door (ENUX...DP)

frontal plexi door and rear panel (ENUX...PV) •

- 1 EUTF Top and bottom
- 2 EUPO Blank door with structural uprights
- 2 EUPO...L Blank door Simplex with structural uprights
- EUPV Plexi door with structural uprights 2
- EURE Rear panel with structural uprights 3

ONE STRUCTURE FOR MULTIPLE SOLUTIONS

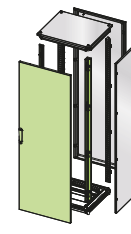

E NUX is conceived as a real complete “system” of cabinets for different applications: based on the same E NUX structure (bottom + top + uprights), thanks to a wide range of specific accessories the configuration of the following solutions is offered:

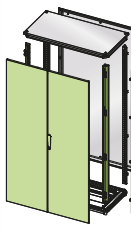

- modular solutions
- PC enclosures
- control desks cabinet
- 19” rack solutions
- telecom/networking solutions

Further to the cabinet manufactured from mild steel, E NUX is available in high-quality brush finish AISI304L stainless steel material (AISI316L upon request) for corrosive environments and specific industries; moreover, even if enclosures are not subjected to EMC regulations, ETA offers E NUX cabinets manufactured from galvanized sheet steel supplied with conductive gasket to provide a higher shield.

TECHNICAL FEATURES

- | | |
|---|---|
| <p>1 Removable roof and bottom to simplify glanding</p> <p>2 Simple assembly of the structure thanks to 8 screws only and exclusive orthogonal joint</p> <p>3 Rigid structural uprights with closed symmetric profile</p> <p>4 Reversible door with strengthening frame</p> <p>5 Stylish plexi door available</p> <p>6 Opening system with a lever style latch design and:
3-point locking for H = 1400 and 1600
4-point locking for H = 1800 and 2000
5-point locking for H = 2200
with possibility to mount different inserts and convenient lock release system of the slave door of double door cabinet</p> <p>7 Sturdy panels for high stiffness</p> <p>8 Front-inserted mounting plate which can be recessed flush with the uprights thanks to the effective sliding guides system integrated in the bottom</p> | <p>9 One-piece cable entry bottom with adjustable base plates and seal</p> <p>10 Easy-to-assemble modular plinth</p> <p>11 Differentiated colour impact: RAL7035 for the cabinet and new colour RAL5020 matched with roof, plinth and handle (colour Pantone 2717U for roof, plinth and handle available as an alternative)</p> |

COMPANY PROFILE AND PRODUCT OVERVIEW

E.T.A. is a solid company that strongly believes in evolution, whose goal is to design and manufacture high-quality enclosure solutions meeting the customer needs and requirements, combining innovation with the experience acquired over more than thirty years of business activity. E.T.A. is an agile and efficient company based in Italy with representation in over 40 countries and logistics centres in UK and France, and stands for long-term partnership and customer-facing organization.

A comprehensive range of innovative enclosure solutions for Industrial Automation and LV Energy distribution is available: from suite cabinets to boxes up to enclosures for specific application...

E.T.A. has the product you are looking for!

When the standard range of enclosures doesn't meet with your application, E.T.A. will work with you in developing a product that best suit your requirements. As your needs change, so do the capabilities: advanced machinery technology for holes and cut-outs, automatic paint systems for alternative RAL colours and finishes.

e max Monobloc cabinets

e comp Compact enclosures

Wall-mounting boxes and terminal boxes

Stainless steel solutions in high-quality AISI304L material (AISI316L on request)

Control desks

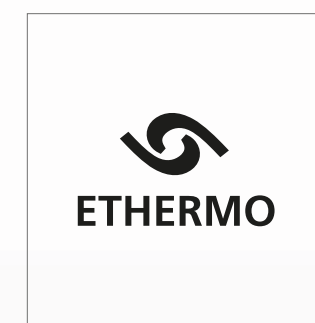

e VIS Outdoor solutions

e RIVI Walkable floor-mounted cable conduit system

Suspension arm system

Thermal management
